

Canuck Place is:

here for  
the journey

2022-23

## The growing need

When children with life-threatening illnesses and their families come to Canuck Place Children's Hospice, the end of the story is already known, but the journey to get there has yet to be written. With your support, we ensure the rest of that story is the very best it can be.

Caring for children and their families will always be at the heart of the mission of Canuck Place – and the needs of patients and families are constantly evolving. Your support will continue to bring more in-home care, more virtual health supports, patient and family engagement, and expanded provincial care. We are grateful that you are a champion for care of children and families and support their brave, vulnerable hearts.
